The creative branding team - crafted around YOU

At Conceptualise we enjoy the support of experienced associates in complementary disciplines, ranging from the highly technical to the creative and promotional ends of the spectrum. This offers a unique synergy and breadth of key support to you our clients, depending upon your specific requirements.

Michelle Warner **Annemarie Thurgood**

Michelle Field and Annemarie Thurgood established Athena Web Designs in August 2011. We help both large and small organisations and businesses throughout the UK to promote themselves online.

We have always offered a creative, welcoming and energetic environment where trusting, professional and lasting relationships can be formed.

We recognise that digital advertising can be very daunting and with our combination of knowledge, experience and great communication skills we are able to make our clients feel comfortable and confident when they are making important marketing decisions.

Our services strongly compliment the other business offerings that make up **Conceptualise**. Good communication has always been very important to us and having worked with members of **Conceptualise** we know and trust that they share these principles.

We are proud to be a part of **Conceptualise** which our clients perceive as a completely transparent offering. One particular advantage of this transparency is that, unlike in the case of agencies using sub-contractors, our clients can speak directly to the person carrying out the work, rather than trying to communicate through a third party. They tell us the key benefit is the elimination of breakdowns in communication saving them time and money.
